Career Objective

A motivated B.Tech CSE student seeking opportunities in Software Development and Full Stack Development. Eager to apply my knowledge of HTML, CSS, JavaScript and programming fundamentals to build efficient and user-friendly applications.

Technical Skills

- Web Technologies : HTML, CSS, JavaScript
- Languages :Java (Learning Fundamentals and OOPS concepts)
- Data Structures & Algorithms : (Learning in progress)
- Tools: Git, GitHub, VS Code
- Core Concepts :OOPS, DBMS

Projects

Coffee Shop Website | HTML, CSS

- Built a responsive Coffee Shop Website with a modern and attractive user interface.
- Designed sections including Home, About, Coffee Menu, Customer Reviews, and Contact.
- Used HTML and CSS to create a clean, responsive layout for different screen sizes.
- Improved user experience with intuitive navigation and visually appealing design.

Portfolio Website | HTML, CSS

- Built a responsive personal portfolio website showcasing skills, projects, and professional profile.
- Organized content into About Me, Skills, Projects, and Contact sections for easy navigation.
- Designed a clean and user-friendly interface optimized for multiple screen sizes.

To-Do List Web App | HTML, CSS, JavaScript

- Created a task management application featuring task creation, updating, and deletion.
- Implemented real-time task updates without page reload
- Used JavaScript and DOM manipulation for dynamic functionality
- Managed user inputs and events for smooth functionality
